

Club EMAS. Who we are?

We are a private, not-for-profit association made up of companies and other organisations from different sectors and of different sizes. Our common feature is our desire for environmental improvement, taking the form of our participation in the **EMAS** system, the scope of which includes at least one centre in Catalonia.

You will find a list of Club EMAS members as www.clubemas.cat.

The creation of **Club EMAS** is unique in Europe and renews opportunities for the environment, the economy and the companies to work together closely.

Our aim

To promote and oversee the continuous improvement of the environmental behaviour of organisations and of society in general and the protection of the common interests of the association's organisations concerning their participation in the **EMAS** system.

With the support of

What is EMAS?

It is the acronym for **Eco-Management and Audit Scheme**, a management tool for voluntary use by businesses and other organisations, making it possible to assess, improve and publicise their environmental behaviour.

EMAS companies and organisations are characterised by their voluntary effort to protect the environment, beyond compliance with environmental legislation. This effort is recognised by the European Union with the following logo:

What do we do?

-  Co-ordinate, represent, manage and foster the common environmental and professional interests of associates without harming general environmental interests.
-  Work in a co-ordinated way with the public administration in order to obtain benefits deriving from the environmental commitment the organisations have adopted.
-  Work to increase the visibility and recognition of **EMAS** organisations.
-  Work to promote participation by organisations in the **EMAS** system.

To find out about current projects in detail, see
www.clubemas.cat

What do we offer?

-  To the Administration and to **EMAS** organisations: a meeting place for working in a co-ordinated way on matters of common interest.
-  To members: forming part of a group exercising its influence to respond to common needs in relation to the **EMAS** system; participating in working groups in areas related to **EMAS**; enjoying an specific information network of interest for your environmental management system; special benefits (discounts on services for updating legal requirements, insurance...), etc.
-  To companies that have not yet implemented **EMAS**: the experience of our members.

Join Club EMAS

If you are an **EMAS**-registered organisation and the scope of your system includes at least one centre located in Catalonia, you have the chance to form part of **Club EMAS**.

CONTACT US AND WE WILL TELL YOU HOW.
